EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John D. Cowart on 06/19/2007.

The application has been amended as follows:

- cancel claims 1-4; and
- amend claim 6 as follows:

6. (Currently amended) A hardware cabinet comprising:

- a chassis configured for mounting multiple heat-generating electronic systems; and
- a door mounted to the chassis to allow access into the cabinet [and having:];
- where the chassis and the door together define exterior surfaces for the cabinet;
- where the door includes:
- a solid face that extends from a top portion of the door along a majority of the door's length; and
- a first opening formed in a lower portion of the door to allow chilled air to enter the cabinet through one of the exterior surfaces;

Art Unit: 2841

- where the chassis is structured so that, when electronic systems are mounted in the cabinet, a plenum is formed between the door and the electronic systems, such that air entering the cabinet is able to rise between the door and the electronic systems; and
- where the [chassis includes] cabinet also comprises a second opening positioned to allow chilled air to enter the cabinet through another of its exterior surfaces.

- add new claim 10 as follows:

10. (New) The cabinet of claim 6, where the second opening is positioned in the chassis.

Allowable Subject Matter

2. Claims 6-10 are allowed.
3. The following is an examiner's statement of reasons for allowance: In response to remarks and claim amendments made in Applicant's appeal brief filed on 02/02/2007, Applicant's argument is persuasive. In claim 6, applicant states the limitation "a first opening formed in a lower portion of the door to allow chilled air to enter the cabinet through one of the exterior surfaces;" in combination with "a second opening positioned to allow chilled air to enter the cabinet through another of the exterior surface." This limitation, in conjunction with other limitation as claimed in the claim 6, was neither found to be disclosed, nor suggested by the prior art. Amended claims have been

considered and upon conclusion of a comprehensive search of the prior art, the office indicates that the claims, as amended, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
